

THE STOCK MARKET GAME™

Supports Texas Financial Literacy and Math Requirements

The Stock Market Game™ (SMG) is a comprehensive educational program. Students develop personal finance skills related to savings and investing as they learn & apply academic knowledge in economics, math, language arts and technology. An online Teacher Support Center and teacher training make it easy for teachers to implement the program in their classroom.

How Does the SMG Competition Work?

Teams of 2- 5 students in grades 4-12 receive a virtual \$100,000 to invest during a 10-week session. They research companies, select investments and manage their online trading account. Top performing teams in regional divisions receive awards.

The national essay competition is open only to SMG students. There are prizes for students and teachers. For more information go to www.investwrite.info
